

TOWN OF SAN ANSELMO MERCHANT PARKING PERMIT GUIDELINES

The Town of San Anselmo in partnership with the local business community has a program in place that allows employees of local business to park all day in 4-hour time zones. In order to qualify for a permit you must adhere to the following rules associated with the program:

- Merchant Permits **MUST** be placed in the bottom left corner of the vehicle's rear window
- Merchant Permits **MUST** be permanently affixed to the window with adhesive backing.
- Merchant permits that are incorrectly placed and/or not permanently affixed will be considered **INVALID**, and citations for overtime parking will be issued when violations occur.

Merchant parking permits are **only** valid in 4-hour time zones. These time zones are located on certain portions of Sir Francis Drake Blvd and on side streets in the downtown area. Careful attention must be paid in these areas, as streets transition from 2-hour to 4-hour zones. Merchant parking permits **do not** allow for the extended parking of any vehicle in 2-hour or metered zones. The Police Department provides strict enforcement of all timed and metered zones.

Questions regarding the merchant parking permit program can be directed to the Police Department by stopping by or calling 258-4610.

Your cooperation in following these guidelines will continue to help make San Anselmo a thriving business community.
